Weekly Meetings Keep Project on Track

Every Monday morning, members from Charter Building Company, the general contractor for the \$13 million renovation of the Pen Centre, host a meeting with personnel from the Pen Centre, MMC International Architects and Gervais Harding, the design firm, along with representatives from the various trades involved in the project. The meetings lay the groundwork for the week's work schedule. It is also an opportunity to review and discuss various aspects of the project, identify any problems or challenges and ensure the renovation proceeds smoothly.

PEN CENTRE

...updates from the renovation front

CHANGE IS A BEAUTIFUL THING

RENOVATION FYI'S

- All of the mall ceiling tiles have been removed and new strapping is being installed, getting ready for installation of the drywall and cove lighting with wood laminate accents.
- The men's washroom has been gutted and new framing is underway and new plumbing is being installed. The women's washroom has been divided in two, creating a men's and women's facility. The men's washroom should be completed by the end of May at which time they will tackle the women's side.
- Center area of Food Court is now under demolition to lower the floor. The current design of 3 levels will be reduced to 2 levels. The Food Court seating has been temporarily moved to the areas by Soft Moc and Benix.
